Bio

I'm Bharathi Rajasekar, a Senior Technical Recruiter with 14+ years of full-cycle technical recruiting experience and a proven track record of attracting and closing world-class engineering talent. I operate as a trusted talent partner to hiring managers – driving full-cycle recruiting efforts, crafting thoughtful hiring strategies, and relentlessly pursuing top-tier engineers.

I combine deep sourcing expertise – including advanced research techniques and automation – with exceptional organizational skills to manage dozens of open roles while never dropping the ball. Recently, I've been integrating AI into my recruiting workflows to surface better talent faster and operate with even greater precision and velocity.

Previously a Senior Technical Recruiter at Google Cloud and staffing firms serving Rakuten, Capgemini, Honeywell, AWS, and NBC Universal.

Key Accomplishments

- 14+ years of full-cycle technical recruiting experience closing world-class engineering talent.
- 100% offer acceptance rate – a testament to exceptional candidate experience and persuasive, trust-based communication with stakeholders at every level.
- Single-handedly closed 15 tech positions at Rakuten within 6 months with no sourcing support.
- 83% offer acceptance rate at Rakuten; "Out of the World" Award winner for high-impact delivery.
- Automated LinkedIn profile searching in Ghire using JavaScript; introduced LinkedIn invite automation to improve pipeline velocity.
- Trained teams on advanced sourcing techniques including GitHub sourcing and unconventional outreach strategies.
- Promoted as Regional TA Specialist to provide L3 support for complex and niche roles in Aerospace at Randstad.
- Nominated for "Superstar" Award at Randstad for consistent excellence.

Education

University of Madras, India

- Bachelor's of Computer Applications

Current Experience

Senior Technical Recruiter – Amazon Inc.

Oct 2019 – Present | Vancouver, Canada

- Own the full recruiting lifecycle from kickoff through offer for top engineering talent across US and Canada, with precision, velocity, and a strong focus on candidate experience.
- Full-cycle recruiter for tech positions – hiring Solution Architects, Development Managers, Data Engineers, Product Managers, and Software Development Engineers.
- Design and execute creative sourcing strategies to surface and engage top-tier candidates for highly competitive engineering roles.
- Serve as a trusted talent partner to Hiring Managers, VPs, and Business Leaders – deeply understanding team goals and defining what “exceptional talent” looks like for every role.
- Build and maintain a rich pipeline of high-caliber talent to meet both current and future hiring needs.
- Champion an outstanding candidate experience, ensuring clear, timely, and respectful communication throughout.
- Actively monitor metrics and analyze data trends week-over-week; present reports to stakeholders on monthly goals.
- Mentored junior recruiters and drove recruiting programs including DEI initiatives, market mapping, and interview management.

Previous Experience

Senior Technical Recruiter – Google Cloud

March 2018 – June 2019 | Singapore

- Recruited top-tier engineering talent for Google Cloud across Japan, Singapore, Korea, and Hong Kong.
- Closed Solution Architects, Strategic Cloud Engineers, and Technical Solutions Engineers through full-cycle recruiting.
